

NEWSLETTER

December 2017

Next Meeting:

It's December, so instead of having a meeting on the second Sunday of the month, we will meet for our annual Christmas dinner. We have reservations for the Outback Steakhouse on I-10 at De Zavala from 1:30 until 4:30pm on December 10th. Join us please for good food, good company, and the opportunity to win a prize! If you haven't contacted Ethna to make your reservation, please do so as soon as possible, so that we are able to give the restaurant an accurate count for the number of people attending and their dinner choice. Remember you need to have your dues paid up for this year to be able to take advantage of the \$15 per person dinner cost. The ICS makes up the difference between what you pay and what the dinner actually costs, and we take care of the gratuity as well.

Birthday Wishes:

Happy Birthday to Bob Barron (3rd), Kate O'Donnell (4th), and Mary Molina (19th)!

Membership:

Kay is preparing the final version of our current roster. If you have not renewed your membership, your name will be removed. However, she would still like you to confirm the fact that you no longer wish to be a member, so please send an email stating your wishes. If it slipped your mind, please send her a message that your check will be in the mail. Your cooperation in this is greatly appreciated.

San Antonio Gaelic Football:

Just wanted to let you know we have booked a field for our winter game on December 9th. The field we have booked is Levi Strauss park, 6100 old highway 90 W. The field is booked from 3-5. Game should start around 3:30.

Afterwards we are going to the Alamo Beer Company for a social get together. We have signed up for the adopt-a-family Christmas program where we donate gifts to a needy family. We did this last year also. This year we signed up to donate to two families. The gift drop off will take place at the Alamo Beer Company that evening. It's a nice event.

Sláinte, Keith

The Irish Water Spaniel

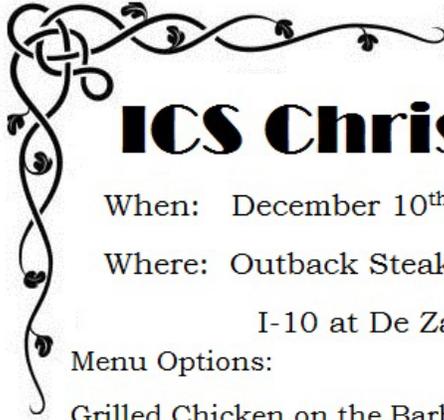

This breed has a highly distinctive set of locks, almost resembling those of a female step-dancer. They have curly coats and a seemingly ratlike tail jutting out their posteriors.

They cannot get enough of the water, and they excel in this venue, from where they have been known to retrieve quite a collection of animal life.

As to the breed's heredity, varying conjectures have been made. Certain names that arise are the Barbet, the Poodle, and the Portuguese Water Dog, among others.

The breed as it now appears came of age in Ireland in the early 19th-century.
